KPMG *Digital Solutions*

DocuPro

Store and share your personal documents in a highly secure cloud environment

DocuPro gives you the ability to securely store your personal documents right in the KPMG Fulcrum trusted environment and then to share them with other users in your organisation. It's a great place to store copies of your certifications, ID documents and anything else you need to get access to on a regular basis

Upload and store with confidence
All documents are stored with confidence in a trusted environment. Our robust security means that your information is kept secure at all times.

Encryption ensures that your documents remain secure. All information is encrypted while in transit and at rest ensuring that nobody can intercept or decipher your files.

Access anywhere
Since your documents are in the Cloud, you can access them from any browser-enabled device anywhere in the world.

Share with others
You can share the documents you upload with others in your organisation. Sharing is easy, just select a pre-defined list (based on geography, department, service line, staff level) or name specific people and click *Share*.

Others get notifications when you have shared a document so they know where to get it.

Detailed Audit Trail
Every document is tracked and traced and a full audit trail is available. You can see when the document was uploaded, downloaded and viewed by others.
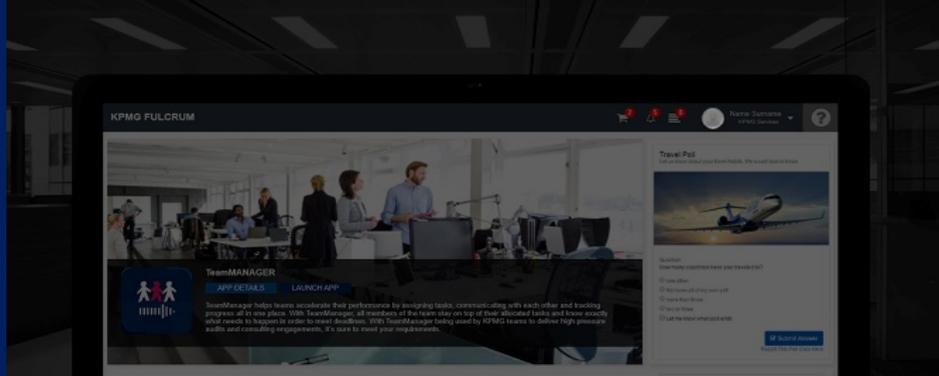

It's also possible to review all previous versions of the document – as long as they have not been purposefully removed from the platform.

Destruction guarantee
Your documents are yours. We do not keep copies of anything after you decide to delete it from our servers. Backups are refreshed on a regular basis so there is no lingering digital footprint once you decide to remove something.

This does mean that when you delete it, it's gone for good. We cannot help to retrieve anything after you've decided to destroy it.

KPMG Fulcrum

DocuPro leverages the security, workflow, messaging and auditing core of KPMG Fulcrum to provide a trusted document storage solution

KPMG Fulcrum is a web-based enterprise app store that provides the ecosystem needed to rapidly deploy and host world-class digital solutions for our clients.

Our fully responsive architecture guarantees optimal performance and a superior user experience on any browser on any device, including computers, tablets and smartphones.

Always on – always maintained
KPMG Fulcrum lives in the Cloud. This means that you can access your content from anywhere in the world at any time. It also means that we provide the back-end maintenance and support – no need for you to install any software or servers into your data centre.

Security and Trust
We take security very seriously, complying to KPMG's global security standards.

Our security manifest is available for review on our website.

Detailed auditing and tracking
Everything performed on the platform by you and your staff is logged in our detailed audit trail.

Privacy guaranteed
Our platform is designed to comply with privacy legislation in all the areas we serve. We take privacy very seriously and are constantly adding new methods to protect yours. Our privacy policy is available on our website.

Zero-knowledge password policy
Only you know your password, and therefore only you (and those you share it with) can access your documents. KPMG Digital employees cannot see your password, nor can they see your data except in raw form (e.g. how many files you have and how much storage space they take up).

Integrated Messaging
Never miss a deadline or alert again. Our integrated messaging system ensures that you get all the alerts from all the webapps on KPMG Fulcrum in one, easy to access place.

Tasks made easy
All the tasks you are requested to perform across all the webapps on our platform are presented in a central location – TaskPro. There's no need to open every application to see what's due today.

A place for your own apps
By levering the power of digital, we deliver innovative solutions to clients in need of an intuitive, engaging and affordable approach to digital. If you can't find the app you need, we'll build the app you want - tailored to your specific business needs.

With KPMG Fulcrum, not only do you get a superior digital experience on a highly secure and trusted platform but you are also able to access KPMG Intellectual Property, content, methods and experts right in the browser of your choice. This content is accessible through a variety of Webapps designed and supported by our world-class team of digital experts who work tirelessly to offer superior value, design processes and construction methods to our clients.
