

TaskPro

Create, view, assign and manage tasks easily online. Keep up to date with tasks that are due each day and easily assign tasks to your colleagues.

Stay up to date

Never miss a deadline again. Our intuitive dashboard shows you all tasks due today or the next few days. You can also quickly spot those overdue items that may have slipped through the cracks.

Work Online

View and update tasks that have been assigned to you

Work as a team

Assign tasks to others and track progress of those that have been assigned. You can reassign tasks to others or push tasks to others if they are more suited to completing them. The audit trail keeps track of who's doing what and where the tasks are due.

Manage

Manage task start and due dates

Secure

Your tasks lists

Manage your KPMG Fulcrum experience

All actions requiring your attention on KPMG Fulcrum are automatically included in TaskPro for you, enabling you to easily manage your KPMG Fulcrum presence right from the main menu bar.

Integrated with KPMG Fulcrum

TaskPro is a core webapp meaning that it integrates with every other webapp on the platform. If you create or are assigned task from any webapp, that tasks is automatically added to TaskPro for you. If you update the status of the task in TaskPro, the relevant webapp will also be updated.
